

Bubbles Recipe

1.

Simply stir together *6 parts water, 2 parts Joy dishwashing liquid (this brand works the best), and 3/4 part corn syrup*. Store in a covered container. Have your kids try experimenting with a variety of homemade bubble wands: pipe cleaners bent into interesting shapes, cookie cutters, yogurt lids with the centers cut out, and so on. For a giant bubblemaker, cut off the top and bottom of a large metal can with a can opener and hammer the inside edges until they are smooth (a parent's job). Dip either end in the solution and wave through

2.

1/2 cup of dishwashing liquid (Dawn or Joy)

2 cups of water

2 teaspoons of sugar

Add a dab of food coloring for colorful bubbles. Mix the solution and place in a shallow pan (or refill your old bubble containers).
